

Leader Impression i10A-LE Battery Pack Replacement

This guide will show a step by step process to replace a worn out battery pack on your Leader Impression i10A-LE tablet. This replacement will take approximately 15-20 minutes to complete.

Written By: riley seyffert

TOOLS:

- [Sprudger](#) (1)
 - [iFixit Opening Tools](#) (1)
 - [Soldering Station](#) (1)
-

Step 1 — Battery Pack

- Start with your Leader Impression i10A-LE with the word "Impression" closest to you and the camera in the top left corner.

Step 2

- Use the plastic prying tools to crack open the back of the device.
- Once cracked, use more plastic prying tools to fully remove the back panel. A popping noise will occur when each clip is opened.
- Remove the back panel and set aside.

Step 3

- The battery pack is glued to the device.
- Use a spudger to pry the battery pack from the glue.
- Desolder the positive (red) and negative (black) power leads.

To reassemble your device, follow these instructions in reverse order.
